## MOOT, LEATHERWOOD, HOWELL, MATHESON

RESULT OF REPUBLICAN CONVENTIONS IN SALT LAKE.

Harmonious in State's History—Republicans Have No Fear of Defeat and Place Strong Standard Bearer in the Field.

United States Senator Reed Smoot again declared Tuesday to be unanimous choice of the republican party of Utah to represent the state in the upper house of congress. When the name of Senator Smoot was mentioned in the nomination speech of Ben L. Rich, the strength of the convention was and cheered Senator Smoot to echo. Delegates everywhere and their arms and shouted joy. The spectators in the boxes in the rear of the theater joined in the general demonstration. A band struck up "The Star Spangled Banner" and the enthusiasm of every person in the convention hall was given unrestrained expression.

Utah, the home county of Senator Smoot, launched the demonstration from their seats on the fifty-three delegates from the county jumped to their feet, waved a large banner bearing the words, "Victory is Ours; We Are Utah and Smoot," and began to sing about the convention hall. The delegates brought forth American flags and proceeded to keep with the music of the band, or could be heard of the music, the din as they marched to the theater.

W. M. McCarty Presented. A. C. Matheson nominated Chief Justice W. M. McCarty in a short address in which he paid a tribute to the judicial opinions of the incumbent. Then followed a demonstration for Chief Justice McCarty. He was nominated by acclamation and the delegates cheered for a speech by him. Justice McCarty made a short address from his place in one of the boxes of the theater.

Matheson For Superintendent. The state superintendent of public instruction A. C. Matheson was nominated amid great enthusiasm. He was thought that Dr. E. G. Gowen would be presented to the convention, but the fusionists carried out their program of inducing the republicans to elect him as a candidate.

Congressman Joseph Howell was elected as a candidate for congress in the first ballot by the first convention at the Utah republican convention Monday afternoon. He received 169 of a total of 235 votes at the convention. His nearest opponent was Congressman Jacob H. Cannon of Sanpete county, who received forty votes, while the remainder of the votes was scattered among five other nominees, there being seven in all before the convention.

A corner of the Commercial Department, Carbon County High School. Students are attending business colleges in the state and paying \$60.00 a year tuition for instruction no better, and in many cases not so good as that given free of charge at the Carbon County High School.

### SAVOY RECEIVER APPOINTED

One Thousand Dollars Assets; Liabilities Twelve Thousand.

Hiram Baird, erstwhile manager of the Savoy Hotel company, is selling insurance in the Utah country. "And believe me," said George E. Ford of the Merchants Bank of Salt Lake City, who was here yesterday, "he is selling it." Mr. Ford says that Hiram is lining up risks to the advantage to himself of between \$400 and \$500 monthly.

Incidentally, Mr. Ford is willing to admit that Hiram is in a class by himself. "Think of it," said he, "that after borrowing all he could from a conservative bank on furniture and fixtures and charging the amount to profit and loss to drop in and get \$1100 on top of that without security."

Quite a few around Price are also willing to hand Hiram the blue ribbon for his success in getting the coin. While Room 17, Savoy hotel, now known as "the room of prayer," was of considerable assistance, he nevertheless met with flattering results in other incursions into the money zone. It was in Room 17 that Hiram actually prayed K. N. B. Jensen out of a good many hundred dollars of his wealth. Hiram now believes as firmly in prayer as he does in advertising.

Mr. Ford was in Price endeavoring to get the Savoy affairs in some kind of legal, tangible shape. On the first D. M. Shreeman, the present manager of the hotel was appointed his receiver. In the order appointing him to this position it is set out that the assets of the Savoy Hotel corporation do not exceed the sum of \$1000 and that the corporation is indebted in the sum of \$13,000; that the corporation has a lease upon the hotel building which will immediately terminate and become forfeited for nonpayment of rent.

### WAR DEPARTMENT RULES MAY CLOSE THE MINES

The operators of coal mines in the state of Colorado are facing a condition which threatens to close every mine. This is the result of an order from the war department, transmitted to the operators by the military authorities now on duty. It reads as follows:

"The following regulations on the employment of labor will be enforced in this district. Laborers recently hired not conforming herewith will be discharged:

1. Miners must seek work at the mines.
2. Must not be gathered and brought in by the operators.
3. Must be citizens of Colorado.
4. Must have complied with the laws of Colorado relating to miners.

The operators state that the first and third paragraphs mean a complete suspension of operations. The first prohibits securing of miners through employment agencies or by advertising, while the third rule will exclude from employment at least three-fourths of the men now at work, with all channels closed by which these men may be replaced.

### HUMAN REMAINS FOUND

Man's Skeleton Discovered Near the Utah Construction Camps.

In response to information that the remains of a dead man had been discovered on the south side of Gordon creek between Utah Construction company camp No. 5 and Gordon's, Sheriff Keller made an investigation of the find yesterday morning.

The remains had the appearance of having been there at least four months and there was nothing discovered that could lead to a possible identification of the dead man.

When the news was first received in Price it was thought that perhaps the remains were those of Dick Poole, who has been missing since last February, but from the size of the skeleton it is quite certain that this is not the case. The man was rather small and wore commensurate shoes. There is little other evidence that could be of any value whatever. The remains will be brought to Price today and an inquest conducted by Judge A. J. Lee.

### CARBON COUNTY HIGH MAY HAVE A NEW PRINCIPAL

LeRoy E. Cowles, principal of the Carbon County High school, has tendered his resignation to the board to take effect only, however. In the event another suitable man can be secured to fill his place. Mr. Cowles has been offered the position of assistant professor of the department of education in the University of Utah, due to the resignation of Professor Thos. C. McCracken, who has accepted a position at the University of Colorado. The high school board is endeavoring to secure a principal to take Professor Cowles' place, as it does not wish to stand in the way of his promotion to a better educational position.

Miss Irene Holland of Grand Junction, Colo., is visiting her sister, Mrs. Bert Darrah, at Hildreth. In the meantime Brakeman Goodridge is laying off.

### GOING RIGHT ALONG

Conditions in the Local Coal Camps Not At All Discouraging.

W. B. Williams, general superintendent of the five properties of the Utah Fuel company in Carbon county and the one at Homestead, Colo., has been in and out of Price several times the past ten days. Despite present smelter conditions, the big mine camp at Sunnyside is now working five days a week and Sunnyside, Williams believes that unless something quite unforeseen occurs, this schedule will prevail for some time to come. With the improvement of the copper situation, the camp will again be put on a seven days a week basis.

The Independent Coal and Coke company at Kenilworth is working five days a week and the mines of the Consolidated are averaging four days. Castle Gate, Winter Quarters and Clear Creek are also making an average of four days. The Cameron Coal company, the Knight properties at Storm and the Standard Coal company are each shipping about five hundred tons daily.

### PEACE FINALLY PREVAILS IN REPUBLIC OF MEXICO

Peace has finally been restored in Mexico. For the past few weeks the only cloud on the horizon has been the threatened estrangement between Carranza and Villa and the latter was reported with an army of 45,000 prepared to make trouble in the north. Whatever difference there may have been between them seems to have been settled and Villa has been using his energy to put down any disturbances against the present provisional government. He is now on his way to join his chief in Mexico City. At a reception given by Douglas officials to General Villa, he gave expression to the following feelings: "The United States and Mexico are natural neighbors and the acts of President Wilson have cemented us."

Miss Dorothy Rasmussen of Minneapolis, teacher of the fourth grade, arrived in Price yesterday.

### NOBLE WOMAN PASSES AWAY

Mrs. Alpha Hallinger Succumbs to Attack of Pneumonia.

Mrs. Elna H. Hallinger, wife of Carbon county's treasurer, Alpha Hallinger, passed to her reward Tuesday morning at 5 o'clock.

Two weeks ago Mrs. Hallinger was forced to her bed by an attack of pneumonia. While her condition at the onset was not considered dangerous, a week before her death serious congestion set in and her attending physician held out little hope of her recovery. Everything possible that advanced medical science could do was done but to no avail and surrounded by every member of her large family the end came just as the dawn was breaking Tuesday.

No one thing that has comforted in Price as years has so comforted the entire people as the news that Mrs. Hallinger had gone to final rest. The care, the trials and sorrows of her neighbors, friends and acquaintances this lovely woman always took upon herself as responsibilities and did her utmost to lighten the burdens of others. There is no family in Price, especially among the older citizens, but can remember acts of neighborly interest and kindness administered by this beautiful character.

Elna Sanford Hallinger was the daughter of F. T. Sanford and wife and was born in White Pine county, Nev., October 16, 1870, and was therefore 43 years, 11 months and 21 days old at the time of her death. She was married to Alpha Hallinger at Ogden on the 29th of October, 1887. To this union were born ten children, nine of whom survive their mother, as follows: Glen, Stanley, Sanford, Jennie, June, George, Olive, Fern and Bert. The latter is but two years of age. These children died in Ogden at the age of sixteen months. Besides her husband and children deceased is survived by her mother, Mrs. Farmer T. Sanford of Cove, Ore., and four brothers: George Sanford of Vancouver, Washington, Alpha and Charles of Flagstaff, Ariz., and Fred Sanford of Price.

Deceased was a member of the M. E. church and an indefatigable worker in its behalf. Funeral services will be held this afternoon from the residence on East Main street at 2 o'clock. Rev. Joseph McLean of Salt Lake will officiate. The pallbearers are C. H. Stevenson, L. O. Hoffmann, W. H. Frye, Thomas Fouts, H. B. Robinson, J. J. Lloyd, J. M. Whitmore and W. C. Benfer.

### WOMEN PLACE NINE SENATORS UNDER BAN

Nine United States senators and nine congressmen "whose opposition to woman suffrage is so powerful as to constitute the greatest obstacle to federal legislation that the women have to face," were named in a statement issued in Chicago Monday by the National American Suffrage association.

The statement, which was written by Dr. Ann Howard Shaw, president of the association, and Mrs. Modell McCormick, chairman of the congressional committee, appeals to all suffrage organizations to join in opposition to these men for election.

The nine senators whose defeat the women urge are Brundage of Connecticut, Clarke of Arkansas, Dillingham of Vermont, Fletcher of Florida, Gore of Oklahoma, Nott of New York, Shively of Indiana, Smith of Maryland and Lodge of Massachusetts.

The members of the house of representatives named are Underwood of Alabama, Mann of Illinois, Fitzgerald of New York, Page of North Carolina, Callaway of Texas, Garner of Texas, Garnett of Tennessee, Hay of Virginia and Simon of Mississippi.

### Richardson-Nelson

Charles Richardson of the Advocate mechanical department and Nelsa Sadie Ray Nelson of Huntington were joined in the holy bonds of matrimony by Rev. J. E. Ferris Wednesday night. The groom is well known in Price, having lived here most of the time for the past ten years. The bride is the daughter of Mr. and Mrs. Joseph Nelson of Huntington. The Advocate joins with their many friends in wishing them a pleasant matrimonial trip.

## FRENCH GOVERNMENT FLEES TO BORDEAUX

GERMANS CONTINUE ADVANCE TOWARD FRENCH CAPITAL.

Siege of Paris Becomes Imminent—Kaiser's Troops Make Steady Gains Against the Allies—Russian Troops Very Successful.

Apprehensive of the German advance, President Poincare of France, his entire cabinet and envoys and all ambassadors of the allied nations left Paris Wednesday for Bordeaux, where they will remain during hostilities.

The Kaiser's army is making a steady advance towards the French capital and while the progress is comparatively slow a siege of Paris is believed to be imminent.

On the eastern frontier the Russians are meeting with success and while Paris is apprehensive of the German advance, Berlin is fearful of capture by the Muscovites.

### FINEST ATTRACTIONS SOUGHT

Carbon-Emery Fair Will Have Nothing But the Best.

For several weeks A. J. Lee, secretary and treasurer of the fair association, has been corresponding with some of the best attractions of this country, and is confident that the Carbon-Emery fair of 1914 will go down in the history of Eastern Utah as "the best ever" in regard to the class of entertainment afforded to the residents of this section. The attractions will be individually and collectively the best in the West.

The fair management has been unusually active in its efforts to give the residents of Carbon and Emery counties something really worth while along the lines of first-class entertainment, and from all indications will be successful in making the Carbon-Emery fair the "one big thing" of the season.

### TO WITHDRAW MISSIONARIES FROM EUROPEAN COUNTRIES

Instructions to withdraw all Mormon missionaries from France and Germany and from the other European countries, according to his judgment, were sent to Hiram Smith, president of the European mission of the Mormon church, Monday night by the first president.

This action was taken following a communication to the first presidency from Senator Reed Smoot, saying that he had conferred with Secretary Bryan last Saturday night and had asked him what he meant by his recent statement advising all Americans to leave Europe. It was uncertain whether he referred to Europe as a whole or only to the "continent."

Secretary Bryan told Smoot he meant the whole of Europe, and he strongly advised the immediate withdrawal of all persons stationed there. The first presidency of the Mormon church does not believe it will be necessary to withdraw missionaries from all of the countries, and for the present will have them taken only from those countries that are at war, or soon likely to become so.

Americans are not particularly welcome in Europe now, say many returned missionaries and others, and one of the main reasons is that they are only so many more mouths to feed.

### CROPS ARE REPORTED ABUNDANT IN UTAH

All crops, especially fruit, are reported abundant in all parts of the state last week, according to the weekly crop report issued Tuesday by Section Director A. H. Thomsen of the Salt Lake office of the weather bureau. Alfalfa seed is ripening fast and will soon be ready to cut. Threshing is being rushed in many localities, owing to the fact that early wheat was in good condition.

The October term of the district court opens in Emery county on the 13th and in Carbon county on the 19th.

## MALICIOUS PROGRESSIVE POLICY IS GIVEN SETBACK BY SUPREME COURT

By a decision of the supreme court of the state yesterday another solar plexus blow was delivered to the malicious policy of the board of Carbon county commissioners that has characterized its headlong career for the past two years. In its opinion, and in which all of the members of the court of last resort concurred, the commissioners have no right to enforce an audit of the high school books for the financial benefit of J. W. Edmunds or any other county administration protégé.

It will be remembered that Judge Christensen on the 10th day of last April decided that the county and the school district are two separate and distinct corporations. Now the supreme court has upheld his decision. This was the case in which the commissioners brought mandamus proceedings against the high school board in an attempt to have the books audited by J. W. Edmunds at a salary of twenty-five dollars per day and expenses. Nelson and Sanford appear as attorneys of record for the board and Bruffet, Erickson and King for the defendants.
